How to Calculate Charges

1. Choose the UPS domestic service for your shipment. Refer to your UPS Zone Chart at [ups.com/rates](https://www.ups.com/rates) to determine the appropriate zone.
2. Determine the shipment's billable weight. Use a scale to determine the weight of the package. Any fraction of a pound in the total should be rounded up to the next whole pound.

If the dimensional weight of a package exceeds its actual weight, the dimensional weight of the package will be used to calculate the billable weight. (See the current "UPS® Rate and Service Guide" for instructions on how to determine dimensional weight.)

Obtain the shipment's billable weight by totaling the weights of the individual packages in the shipment.

A package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

Large Packages are subject to a minimum billable weight of 90 pounds. A Large Package Surcharge will apply in the amounts set forth in the following:

	Zones
	ALL
Commercial	
-Length + girth >130"	\$99.60
-Length >96"	\$99.60
Residential	
-Length + girth >130"	\$110.67
-Length >96"	\$110.67

An Additional Handling charge (as set forth in the "UPS Rate Guide: Small Business Rates") will not be assessed when a Large Package Surcharge is applied. After calculating the rate of the package, compare the rate to the minimum billable rate, and apply the greater of the two.

A package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

3. **For UPS 3 Day Select® and UPS® Ground shipments:** Divide the shipment's billable weight by 100 to determine the number of Hundredweight units.

4. **For UPS 3 Day Select and UPS Ground shipments:** Multiply the number of Hundredweight units by the Shipment Rate Per Hundredweight Unit shown on the rate chart for the appropriate service, shipment billed weight level and zone to calculate the shipping charge.

For UPS Next Day Air®, UPS Next Day Air Saver®, UPS 2nd Day Air A.M.® and UPS 2nd Day Air® shipments: Multiply the shipment's billable weight by the Rate Per Pound shown on the rate chart for the appropriate service, shipment billed weight level and zone to calculate the shipping charge.

Note: Some UPS Ground shipments less than 500 pounds may be more economically rated as 500 pounds. The UPS billing system will automatically compute the shipment charges at both the shipment-billed weight and at 500 pounds, compare them and bill the lower of the two.

Minimum Charges

The minimum charge for a **UPS 3 Day Select** or **UPS Ground** shipment will be the greater of either a charge based on an average weight of 25 pounds per package or a per-shipment minimum charge for the applicable zone as shown below.

The minimum charge for a **UPS Next Day Air, UPS Next Day Air Saver, UPS 2nd Day Air A.M. or UPS 2nd Day Air** shipment will be based on an average weight of 20 pounds per package.

UPS 3 Day Select® Zones	302	303	304	305	306	307	308	Service Not Available

How to Calculate Charges

1. Choose the UPS domestic service for your shipment. Refer to your UPS Zone Chart at [ups.com/rates](https://www.ups.com/rates) to determine the appropriate zone.
2. Determine the shipment's billable weight. Use a scale to determine the weight of the package. Any fraction of a pound in the total should be rounded up to the next whole pound.

If the dimensional weight of a package exceeds its actual weight, the dimensional weight of the package will be used to calculate the billable weight. (See the current "UPS® Rate and Service Guide" for instructions on how to determine dimensional weight.)

Obtain the shipment's billable weight by totaling the weights of the individual packages in the shipment.

A package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

Large Packages are subject to a minimum billable weight of 90 pounds. A Large Package Surcharge will apply in the amounts set forth in the following:

	Zones
	ALL
Commercial	
-Length + girth >130"	\$99.60
-Length >96"	\$99.60
Residential	
-Length + girth >130"	\$110.67
-Length >96"	\$110.67

An Additional Handling charge (as set forth in the "UPS Rate Guide: Small Business Rates") will not be assessed when a Large Package Surcharge is applied. After calculating the rate of the package, compare the rate to the minimum billable rate, and apply the greater of the two.

A package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

3. **For UPS 3 Day Select® and UPS® Ground shipments:** Divide the shipment's billable weight by 100 to determine the number of Hundredweight units.

4. **For UPS 3 Day Select and UPS Ground shipments:** Multiply the number of Hundredweight units by the Shipment Rate Per Hundredweight Unit shown on the rate chart for the appropriate service, shipment billed weight level and zone to calculate the shipping charge.

For UPS Next Day Air®, UPS Next Day Air Saver®, UPS 2nd Day Air A.M.® and UPS 2nd Day Air® shipments: Multiply the shipment's billable weight by the Rate Per Pound shown on the rate chart for the appropriate service, shipment billed weight level and zone to calculate the shipping charge.

Note: Some UPS Ground shipments less than 500 pounds may be more economically rated as 500 pounds. The UPS billing system will automatically compute the shipment charges at both the shipment-billed weight and at 500 pounds, compare them and bill the lower of the two.

Minimum Charges

The minimum charge for a **UPS 3 Day Select** or **UPS Ground** shipment will be the greater of either a charge based on an average weight of 20 pounds per package or a per-shipment minimum charge for the applicable zone as shown below.

The minimum charge for a **UPS Next Day Air**, **UPS Next Day Air Saver**, **UPS 2nd Day Air A.M.** or **UPS 2nd Day Air** shipment will be based on an average weight of 18 pounds per package.

How to Calculate Charges

1. Choose the UPS domestic service for your shipment. Refer to your UPS Zone Chart at [ups.com/rates](https://www.ups.com/rates) to determine the appropriate zone.
2. Determine the shipment's billable weight. Use a scale to determine the weight of the package. Any fraction of a pound in the total should be rounded up to the next whole pound.

If the dimensional weight of a package exceeds its actual weight, the dimensional weight of the package will be used to calculate the billable weight. (See the current "UPS® Rate and Service Guide" for instructions on how to determine dimensional weight.)

Obtain the shipment's billable weight by totaling the weights of the individual packages in the shipment.

A package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

Large Packages are subject to a minimum billable weight of 90 pounds. A Large Package Surcharge will apply in the amounts set forth in the following:

	Zones
	ALL
Commercial	
-Length + girth >130"	\$99.60
-Length >96"	\$99.60
Residential	
-Length + girth >130"	\$110.67
-Length >96"	\$110.67

An Additional Handling charge (as set forth in the "UPS Rate Guide: Small Business Rates") will not be assessed when a Large Package Surcharge is applied. After calculating the rate of the package, compare the rate to the minimum billable rate, and apply the greater of the two.

A package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

3. **For UPS 3 Day Select® and UPS® Ground shipments:** Divide the shipment's billable weight by 100 to determine the number of Hundredweight units.

4. **For UPS 3 Day Select and UPS Ground shipments:** Multiply the number of Hundredweight units by the Shipment Rate Per Hundredweight Unit shown on the rate chart for the appropriate service, shipment billed weight level and zone to calculate the shipping charge.

For UPS Next Day Air®, UPS Next Day Air Saver®, UPS 2nd Day Air A.M.® and UPS 2nd Day Air® shipments: Multiply the shipment's billable weight by the Rate Per Pound shown on the rate chart for the appropriate service, shipment billed weight level and zone to calculate the shipping charge.

Note: Some UPS Ground shipments less than 500 pounds may be more economically rated as 500 pounds. The UPS billing system will automatically compute the shipment charges at both the shipment-billed weight and at 500 pounds, compare them and bill the lower of the two.

Minimum Charges

The minimum charge for a **UPS 3 Day Select** or **UPS Ground** shipment will be the greater of either a charge based on an average weight of 15 pounds per package or a per-shipment minimum charge for the applicable zone as shown below.

The minimum charge for a **UPS Next Day Air**, **UPS Next Day Air Saver**, **UPS 2nd Day Air A.M.** or **UPS 2nd Day Air** shipment will be based on an average weight of 18 pounds per package.

How to Calculate Charges

1. Choose the UPS domestic service for your shipment. Refer to your UPS Zone Chart at [ups.com/rates](https://www.ups.com/rates) to determine the appropriate zone.
2. Determine the shipment's billable weight. Use a scale to determine the weight of the package. Any fraction of a pound in the total should be rounded up to the next whole pound.

If the dimensional weight of a package exceeds its actual weight, the dimensional weight of the package will be used to calculate the billable weight. (See the current "UPS® Rate and Service Guide" for instructions on how to determine dimensional weight.)

Obtain the shipment's billable weight by totaling the weights of the individual packages in the shipment.

A package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

Large Packages are subject to a minimum billable weight of 90 pounds. A Large Package Surcharge will apply in the amounts set forth in the following:

	Zones
	ALL
Commercial	
-Length + girth >130"	\$99.60
-Length >96"	\$99.60
Residential	
-Length + girth >130"	\$110.67
-Length >96"	\$110.67

An Additional Handling charge (as set forth in the "UPS Rate Guide: Small Business Rates") will not be assessed when a Large Package Surcharge is applied. After calculating the rate of the package, compare the rate to the minimum billable rate, and apply the greater of the two.

A package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

3. **For UPS 3 Day Select® and UPS® Ground shipments:** Divide the shipment's billable weight by 100 to determine the number of Hundredweight units.

4. **For UPS 3 Day Select and UPS Ground shipments:** Multiply the number of Hundredweight units by the Shipment Rate Per Hundredweight Unit shown on the rate chart for the appropriate service, shipment billed weight level and zone to calculate the shipping charge.

For UPS Next Day Air®, UPS Next Day Air Saver®, UPS 2nd Day Air A.M.® and UPS 2nd Day Air® shipments: Multiply the shipment's billable weight by the Rate Per Pound shown on the rate chart for the appropriate service, shipment billed weight level and zone to calculate the shipping charge.

Note: Some UPS Ground shipments less than 500 pounds may be more economically rated as 500 pounds. The UPS billing system will automatically compute the shipment charges at both the shipment-billed weight and at 500 pounds, compare them and bill the lower of the two.

Minimum Charges

The minimum charge for a **UPS 3 Day Select** or **UPS Ground** shipment will be the greater of either a charge based on an average weight of 15 pounds per package or a per-shipment minimum charge for the applicable zone as shown below.

The minimum charge for a **UPS Next Day Air**, **UPS Next Day Air Saver**, **UPS 2nd Day Air A.M.** or **UPS 2nd Day Air** shipment will be based on an average weight of 18 pounds per package.

How to Calculate Charges

1. Choose the UPS domestic service for your shipment. Refer to your UPS Zone Chart at [ups.com/rates](https://www.ups.com/rates) to determine the appropriate zone.
2. Determine the shipment's billable weight. Use a scale to determine the weight of the package. Any fraction of a pound in the total should be rounded up to the next whole pound.

If the dimensional weight of a package exceeds its actual weight, the dimensional weight of the package will be used to calculate the billable weight. (See the current "UPS® Rate and Service Guide" for instructions on how to determine dimensional weight.)

Obtain the shipment's billable weight by totaling the weights of the individual packages in the shipment.

A package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

Large Packages are subject to a minimum billable weight of 90 pounds. A Large Package Surcharge will apply in the amounts set forth in the following:

	Zones
	ALL
Commercial	
-Length + girth >130"	\$99.60
-Length >96"	\$99.60
Residential	
-Length + girth >130"	\$110.67
-Length >96"	\$110.67

An Additional Handling charge (as set forth in the "UPS Rate Guide: Small Business Rates") will not be assessed when a Large Package Surcharge is applied. After calculating the rate of the package, compare the rate to the minimum billable rate, and apply the greater of the two.

A package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

3. **For UPS 3 Day Select® and UPS® Ground shipments:** Divide the shipment's billable weight by 100 to determine the number of Hundredweight units.

4. **For UPS Ground shipments:** Multiply the number of Hundredweight units by the Shipment Rate Per Hundredweight Unit shown on the rate chart for the appropriate service, shipment billed weight level and zone to calculate the shipping charge.

For UPS Next Day Air®, UPS Next Day Air Saver®, UPS 2nd Day Air A.M.® and UPS 2nd Day Air® shipments: Multiply the shipment's billable weight by the Rate Per Pound shown on the rate chart for the appropriate service, shipment billed weight level and zone to calculate the shipping charge.

Note: Some UPS Ground shipments less than 500 pounds may be more economically rated as 500 pounds. The UPS billing system will automatically compute the shipment charges at both the shipment-billed weight and at 500 pounds, compare them and bill the lower of the two.

Minimum Charges

The minimum charge for a UPS Ground shipment will be the greater of either a charge based on an average weight of 25 pounds (Tiers 1-2), 20 pounds (Tiers 3-4) or 15 pounds (Tiers 5-7) per package or a per-shipment minimum charge for the applicable zone as shown below.

The minimum charge for a UPS Next Day Air, UPS Next Day Air Saver, UPS 2nd Day Air A.M. or UPS 2nd Day Air shipment will be based on an average weight of 20 pounds (Tiers 1-2) or 18 pounds (Tiers 3-7) per package.

How to Calculate Charges

1. Choose the UPS domestic service for your shipment. Refer to your UPS Zone Chart at [ups.com/rates](https://www.ups.com/rates) to determine the appropriate zone.
2. Determine the shipment's billable weight. Use a scale to determine the weight of the package. Any fraction of a pound in the total should be rounded up to the next whole pound.

If the dimensional weight of a package exceeds its actual weight, the dimensional weight of the package will be used to calculate the billable weight. (See the current "UPS® Rate and Service Guide" for instructions on how to determine dimensional weight.)

Obtain the shipment's billable weight by totaling the weights of the individual packages in the shipment.

A package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

Large Packages are subject to a minimum billable weight of 90 pounds. A Large Package Surcharge will apply in the amounts set forth in the following:

	Zones
	ALL
Commercial	
-Length + girth >130"	\$99.60
-Length >96"	\$99.60
Residential	
-Length + girth >130"	\$110.67
-Length >96"	\$110.67

An Additional Handling charge (as set forth in the "UPS Rate Guide: Small Business Rates") will not be assessed when a Large Package Surcharge is applied. After calculating the rate of the package, compare the rate to the minimum billable rate, and apply the greater of the two.

A package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

3. **For UPS 3 Day Select® and UPS® Ground shipments:** Divide the shipment's billable weight by 100 to determine the number of Hundredweight units.

4. **For UPS Ground shipments:** Multiply the number of Hundredweight units by the Shipment Rate Per Hundredweight Unit shown on the rate chart for the appropriate service, shipment billed weight level and zone to calculate the shipping charge.

For UPS Next Day Air®, UPS Next Day Air Saver®, UPS 2nd Day Air A.M.® and UPS 2nd Day Air® shipments: Multiply the shipment's billable weight by the Rate Per Pound shown on the rate chart for the appropriate service, shipment billed weight level and zone to calculate the shipping charge.

Note: Some UPS Ground shipments less than 500 pounds may be more economically rated as 500 pounds. The UPS billing system will automatically compute the shipment charges at both the shipment-billed weight and at 500 pounds, compare them and bill the lower of the two.

Minimum Charges

The minimum charge for a UPS Ground shipment will be the greater of either a charge based on an average weight of 25 pounds (Tiers 1-2), 20 pounds (Tiers 3-4) or 15 pounds (Tiers 5-7) per package or a per-shipment minimum charge for the applicable zone as shown below.

The minimum charge for a UPS Next Day Air, UPS Next Day Air Saver, UPS 2nd Day Air A.M. or UPS 2nd Day Air shipment will be based on an average weight of 20 pounds (Tiers 1-2) or 18 pounds (Tiers 3-7) per package.
