

UPS® Worldwide Economy

UPS.COM SHIPPING & PICKUP SCHEDULING

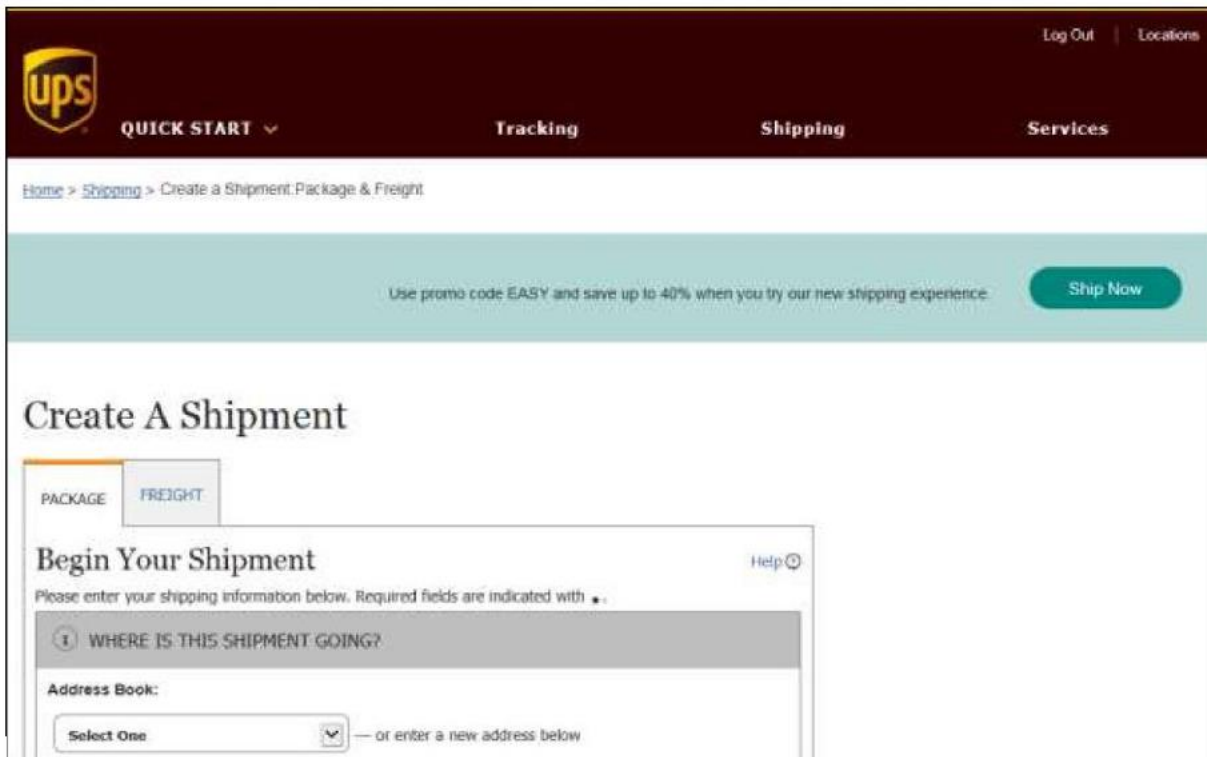

UPS® Worldwide Economy is a differentiated low-cost, contract only e-commerce solution for non-urgent cross border shipments. All shippers must enter into an approved contract to use the UPS Worldwide Economy service. The product is available in Enhanced Web Shipping (EWS), which is the new, updated UPS Internet Shipping platform. It is not available in previous versions of UPS Internet Shipping.

Within Internet Shipping there is a “new” experience and the “old” experience.

UPS Worldwide Economy is only available in the “new” experience, also known as EWS (Enhanced Web Shipping).

When the customer logs in to UIS, and goes to SHIP a Package, they may organically see the OLD version.

Note below the “Create a Shipment” presentation. If the customer sees this, click on the “Ship Now” to accept the “new shipping experience.”

If they select “Ship a Package” and see this type of screen (below), then they are in fact viewing the new experience. Once they move to “new” they will return here each time they login (unless they select “Go To Previous Version”).

Worldwide Economy is available to be selected within the “Specialty Service” selection box.

The screenshot shows the UPS Shipping interface. At the top left is the UPS logo. Below it, the word "Shipping" is displayed. A small note indicates that an asterisk (*) denotes a required field. On the right side, there are three links: "Go to Previous Version", "Ship Freight", and "Go to Guided View". Below these links are two dropdown menus. The first is labeled "Choose an Account" and currently shows "1YE595 – UPS Customer". The second is labeled "Specialty Service" and currently shows "Select One".

UPS Worldwide Economy DDP, duties and taxes are paid upfront

UPS Worldwide Economy DDU, duties and taxes are unpaid and collected at the time of delivery

In EWS, you can process UPS Worldwide Economy DDP or DDU Packages, either individually (loose) or as part of a Master Carton.

- To use a Master Carton, place your UPS Worldwide Economy “Child” packages into the Master Carton to which they were associated. The Master Carton should then be closed and shipped to the export processing site using a separate service such as UPS Ground.
- Once the Master Carton is received at the export processing site, the child packages will be removed from the Master Carton and re-labeled. They will then proceed to their final destination.

Worldwide Economy child packages shipped loose will receive door-to-door visibility. Child packages sent in a Master Carton will begin tracking receiving tracking scans starting at the Worldwide Economy export processing site. Tracking with delivery confirmation is available for select DDU Package destination countries only, as set forth in the DDU rates in effect at the time of shipping.

How to Process a UPS Worldwide Economy Shipment

- Select the account number. (NOTE: Only approved account numbers may use UPS Worldwide Economy service, as set forth in your contract for UPS Worldwide Economy service.)
- Under "Specialty Service", select Worldwide Economy.
- It is optional to select the "Master Carton Shipment" checkbox to process the child package as part of a Master Carton. To process the child package individually (loose), leave the "Master Carton Shipment" checkbox unselected.

Master Carton Shipment

Create a Master Carton

- If you select the "Master Carton Shipment" checkbox and do not have an open Master Carton, you will see the message below and a new Master Carton shipment will be created:
- If you already have an open Master Carton and you want to create another one, select "Add to new master shipment" from the drop-down list.

Choose an Account: 1YE595 - UPS Customer

Specialty Service: Worldwide Economy

Master Carton Shipment

You currently have no open master cartons. A new master carton will be created with this UPS Worldwide Economy Shipment.

- If you want to associate your upcoming UPS Worldwide Economy Child package to an existing Master Carton, select the Master Carton from the drop-down list.

Master Carton selections

1YE595 - 12345 - 12345678

1YE595 - 12345 - 12345679

Services

If your contract for UPS Worldwide Economy service provides for both DDP and DDU service options, you must select one of the service options for each individual package.

International Forms

- Certain international shipping details are required for UPS Worldwide Economy DDP and DDU packages
- The information entered will be included in package level detail embedded in the shipping label and does not need to be printed.
- Under “What best describes this shipment”, “I am selling these items” would be the most common selection for a merchant
- Click “Open Easy Forms” to use Forms Wizard to provide required information for export. You can also complete the required documentation without Forms Wizard by selecting forms individually.
